

The Incomplete Compendium of *Air Warrior*[™] Campaign Scores, 1st Edition

By

0--[--Wraith----

Member, *The Musketeers Squadron*

Foreword

Kesmai's late, great and much missed air combat game, **Air Warrior™ (AW)** is arguably the granddaddy of multiplayer online air combat games. It was an exciting time back in the late 1980s after the game's introduction, and Air Warrior's early adopters were on the cutting edge of what would become the thriving modern online gaming industry.

Yet, while the game's history is fairly well documented, the game's month-long campaign scores, which chronicle AW's growing popularity and the rise and fall of individual players and squads, are hard to come by.

As time went on and the game's popularity grew, scores of squads and thousands of players fought in the virtual skies of Air Warrior. Some people played in Air Warrior's Halftime arena, others played in the Real-time arena, and some played in both. The call signs, the people behind them, and their stories, antics and achievements still bring us fond, fun memories. That history is important to The Musketeers too, given our own long existence as an intact, continuously-operating virtual squadron, whose roots go back to early 1990.

Thanks to the forethought of some of our squadron members, who still cherish those memories of Air Warrior, some scoring results from of that wonderful time still exist, and TMS is happy to compile and share them for everyone to enjoy.

Here then is the ***Incomplete Compendium of Air Warrior Campaign Scores (First Edition)***. Compiled here are the end-of-campaign results for Air Warrior campaigns 2 through 5, 14 through 17, 65 through 121, and campaign 136. These score results encompass a period from early 1988 to early 1996, and are presented in their original format.

Not only will the score results bring back many memories, but they also provide a solid record to confirm *who* was there, what happened, and *when*. Large as it is, the Compendium is still *incomplete*, however, because some campaign results remain lost or exist only in partial form. For example, this First Edition doesn't include score results for campaigns: 1, 6-13, 18-64, 122-135, or 137-and-beyond. (*Any former Air Warrior players who might be able to flesh out the gaps in the records are encouraged to contact me.*)

The Compendium will fascinate dyed-in-the-wool Air Warriors, however. So, to all AW'ers out there—whether from the DOS, AOL, or the GameStorm/EA eras—and A-Landers, B-Landers or C-Landers alike: *enjoy the memories, compliments of The Musketeers Squadron.*
